

Leading the industry
we created

Brighten Up Series™

Highest performance guaranteed*

Perfecting sunlight through invention

We didn't invent the sun. We just improved it.

Solatube® Daylighting Systems are engineered to efficiently capture the sun's rays and deliver them into your home. From sunup to sundown you'll get brighter, more colourful rooms that cost nothing to light.

Because installation can usually be done in about two hours with no structural changes, it's the fastest and simplest solution to a brighter, more beautiful home.

Capture

Our combined technology delivers **unvalued year round performance in light output and superior UV protection**

Raybender® 3000 Technology - A patented daylight-capturing Technology that:

- Redirects low-angle daylight for maximum light capture
- Rejects overpowering summer midday sunlight and heat
- Provides consistent daylight throughout the day

LightTracker™ Reflector - Innovative in-dome reflector that:

- Increases and redirects low-angle morning, afternoon and winter sunlight.
- Provides more daylight when you need it most

Transfer

Spectralight® Infinity™ tube made from the worlds most reflective material with patented 'Cool Tube' technology for **maximum energy efficiency.**

- Delivers 99.7%** specular reflectivity for maximum daylight transfer
- Provides the purest colour rendition possible so colours are truer and brighter
- Transfers light further than any other skylight material.

Deliver

Stylish Daylight Delivery

Form and function combine for optimal daylight diffusion

- Solatube® Decorative Fixtures bring the beauty of glass to your interior
- The Effect Lenses offer choices to warm or soften the light
- A Light Kit, Vent Kit or Daylight Dimmer adds functionality

Engineered Light Diffusion

Advanced optical technology:

- Blocks UV transmission
- Delivers superior diffusion
- Provides for visual clarity and comfort

**Specular reflectance greater than 99% with wavelength specific reflectance up to 99.7% for the visible spectrum

Solar Star

Power and performance with style

SOLAR STAR
by SOLATUBE.

Drive out heat and moisture

Heat and moisture are your enemies when it comes to your home. Solar Star Attic Fans reduce their effects, keeping your home cool in summer and protecting it from harm during winter. Harnessing the sun's energy, these fans use solar electricity to effectively ventilate your attic.

Advanced

Advanced solar panel technology generates maximum power.

Durable

Seamless, powder-coated steel flashing is leak-proof and durable.

Long-lasting

Non-corrosive polymeric fan blades and exhaust grill are long-lasting.

High-performing

High-performance motor is reliable and whisper quiet.

Solar Star Roof Mount 1200

The Solar Star RM 1200 is designed to keep your attic cool and dry by driving out built-up heat and moisture. It's the perfect solution for small attic spaces and moderate to mild climates.

Solar Star Roof Mount 1600

The Solar Star RM 1600 generates maximum power to battle built-up heat and moisture in your attic. It's the ideal solar-powered ventilation solution for large attic spaces and extreme climates.

Brighten Up Accessories

Adding functionality and style to Australia's highest performing Skylight*

Select your style

Our Solatube® Decorative Fixtures enhance the look of any interior with options that range from practical to elegant to dazzling.

AuroraGlo™ 290 DS/DSe

OptiView®
160 DS/DSe
290 DS/DSe

Control your light

Light Add-on Kit

Works with any ordinary bulb for night-time use.

Ventilation Add-on Kit

Combines with the Solatube® 160 DS to drive out humidity in a single elegant design.

Daylight Dimmer

Easily controls the amount of daylight entering a room with the convenience of a switch.

Flashings for All Roof Types

Fabricated as a single, seamless piece to ensure leak-proof performance, flashing kits are available for all roof types and pitches.

250 Corrugated

400 Corrugated

250 Concrete Tile

400 Tile for Concrete and Terracotta

250 Terracotta Tile

No pitch for over flashing

Smart LED

Creating light in a smarter way

The sun and LED unite

The Solatube® Smart LED System is a 24 hour home lighting solution that delivers up to 94% in light energy savings*.

This revolutionary hybrid system combines advanced LED technology with state-of-the-art daylighting for unparalleled energy efficiency. It also operates automatically, lasts longer than traditional electric lights, and is virtually maintenance-free.

Designed for ultimate performance

The Solatube® Smart LED System has earned the prestigious

ENERGY STAR rating for its ability to minimize heat loss in extremely cold climates and heat gain in extremely warm ones, giving you the ultimate in thermal performance and energy efficiency.

*94% light energy savings was calculated by comparing electricity use of two 60 watt incandescent light bulbs in a typical recessed can with baffled trim for a combined three day hours and three night hours to one 15 watt LED for three night hours.

Amplifier

The patented Amplifier redirects light downward at the most effective angle, maximizing light output for powerful performance.

Daylight Sensor

The Daylight Sensor automatically activates the LEDs when needed to maintain consistent light levels.

Light Emitting Diodes (LEDs)

Four 3000K LEDs provide ultra-energy efficient lighting designed to last up to 20 years.

Optional Occupancy Sensor

Automatically triggers LEDs when light levels are low in an occupied area.

Heavenly Intelligent

A Skylight to rival all others

The Heavenly Intelligent is the most affordable of our high quality tubular skylights. This skylight utilises ray-bending technology to capture both low and high angled light, making the most of every hour of sunlight. The hours of daylight captured by the Heavenly Intelligent rival all competitor products. The Heavenly Intelligent is made from tough transparent polymers designed to stand up to extreme weather, including hailstorms, with a no leaks guarantee.

- | Mirror like reflectivity tube
- | Effortless installation, no structural modifications required
- | Hail resistant dome with UV protection
- | A high quality, leak-proof roof flashing
- | Complies with Australian Standards AS4285

Heavenly Intelligent Accessories

Light Add-on Kit

Minimise the light fittings in your ceiling and locate them inside your skylight.

Ventilation Add-on Kit

Unique to Solatube® this innovative two-in-one ceiling fixture extracts stale air, and minimises ceiling penetration for a more attractive look.

Slimline Diffuser

Best suited for task-lighting a particular area.

Prismatic Diffusers

Maximise the spread of beautiful natural light.

Econotube

Quality on a budget

- Combines premium quality roof-top components with economical below the roof components
- Crystal Clear dome with standard UV protection
- Leak-proof profiles to suit all roof applications

Passive ventilation available:

250mm

400mm

Econotube Accessories

Ventilation Add-on Kit

Prismatic Diffusers

Enviromax

Mechanical roof ventilation

- Operates automatically when needed, even in non-windy conditions
- Rating 820m³/hr
- Warranty: 2 year motor
- 1 double cap thermostat motor vent equals 7 wind vents
- Thermostat controlled

Service

How can we brighten your day?

When you decide to buy a Solatube® Daylighting System from us, you have the option of having it installed by one of our Solatube® Certified Installation Consultants.

But what does that mean for you?

Quite simply it offers you peace of mind, as we fit your Solatube® Daylighting System quickly and efficiently with minimum disruption.

Our team has undergone an intense Solatube® Installation Certification program, provided by Solatube® Australia Pty Ltd. This training course has been put together through the joint knowledge of Australia's largest skylight network and is focused on delivering a professional installation and courteous service which is second to none in the industry.

Our Certified Installer network carry full indemnity insurance and provide guarantees for the work they carry out. They are not qualified electricians, however, so under current legislation they are not permitted to carry out electrical wiring.

“I provide you with design expertise to ensure you get the right light every day.”
